

# We-Capture, Australia & NZ

---

## We-Capture, an Image Capture App for Industry

We-Capture is an industry application which captures images on Apple and Android devices and uploads images to your specific quoting package or application. A simple, easy to use app which save countless hours within a week for average users who currently deal with cameras, cards, cables and manually attach images to their system. Current users taking advantage of this software include: - Panel Beaters, Roadworthy Inspectors, Lease / Car Hire / Rental, Cleaning, Signage, Towing and transport companies.

The We-Capture integrates with your system to place images directly into current quotes, archival systems, invoicing systems and can also create new quotes and headers in most popular quoting packages.
